

Official Statement from Rick Masson, Acting President & CEO
Memphis Light, Gas and Water
July 11, 2007
Joseph Lee Indictment

Today's announcement of federal indictments of former MLGW President and CEO Joseph Lee III represents a sad day for MLGW and its customers. It would be inappropriate for MLGW to specifically comment on an ongoing legal matter. However, as a company, we want to assure our customers that our employees are committed to moving forward in restoring public trust and providing the best possible utility services to Shelby County.
